

MONTINI

SPECIAL ELECTRIC FORKLIFT TRUCKS

SPECIAL ELECTRIC FORKLIFT TRUCKS

SPECIAL MODELS FOR FRUIT & VEGETABLE HANDLING

**FOR
EVERY NEED,
A SPECIAL
FORKLIFT**

Each company has its own specific logistic needs based on its structure, warehouses and sector of operation.

For **over 50 years** MONTINI has been an expert in the design and construction of **special electric forklifts**, studied in every detail to optimize logistic in warehouses with **specific needs**.

Thanks to its research and various patents (CSM suspension for 3- and 4-wheel forklifts) filed over the course of the years, MONTINI has developed the necessary experience and specific know-how to provide the market with **technological gems: special electric forklifts of unrivalled performance and reliability**.

ALL FORKLIFT TRUCK OPERATORS HAVE ONE THING IN COMMON: THEY'RE ALL DIFFERENT.

Forklift truck operators, as well as being different from one another, need different **vehicles customized** to perform the specific tasks their job involves.

Everyone builds forklifts; **unlike others, MONTINI builds special electric forklifts, adapted to meet the specific needs of its customers.**

This is why MONTINI represents an added value partner, capable of offering special solutions for each particular sector thanks to its constant involvement in the activities and needs of its customers and its continuous innovative product research.

- 6 - 7 ton
- 8 - 9 ton
- 10 - 18 ton

MONTINI's leadership is the result of choices made over the years.

Strategic and commercial choices which have always led us to **invest in technological innovation** and driven us to create a wide range of special products, capable of meeting the specific and personalized needs of our customers:

- **sale** of special electric forklifts, ideal for working specifically in the food & beverage, fruit & vegetable, paper & wood and heavy metal carpentry sectors; ideal for managing ad hoc warehouse logistics processes and for demanding work applications;
- **rental** with the most affordable and personalized medium- and long-term options;
- **periodic inspections** on forklifts, aimed at guaranteeing the good technical condition of vehicles;
- **training** on the safe use of forklifts and to obtain operator certification;
- technical support and after-sales services, provided by **highly specialized personnel** trained in forklift construction techniques, in accordance with Machinery Directive 2006/42/EC;
- **GPRS** installed on the forklift battery so **it can be managed and its correct use verified in remote mode**
- remote maintenance and assistance operations thanks to the **innovative MONTINI "Remote Control" system**.

WHY CHOOSE US

By choosing a special MONTINI electric forklift truck, in addition to a technologically advanced vehicle, you are investing in **safety and high performance**.

Customers choose MONTINI special electric forklift trucks because:

- they meet the growing demand for solutions that **increase productivity and contain running costs**;
- they are robust and reliable vehicles with **advanced technologies** which improve the productivity of operators and the overall efficiency of the forklift fleet;
- thanks to their **reliability, innovation** and special equipment, they ensure greater sustainability;
- they are guaranteed by complete after-sales services, provided by **qualified and expert technical personnel** available in Italy and the rest of Europe.
